Atlanta 3, Ga.

Telephone: LAmer 6041.

Vol. 8, nos. 3 & 4

September-October, 1949.

THIS IS YOUR USDA LIBRARY

READER
Name: _____ Title: _____

Bureau: _____

Address: _____

The list of periodicals issued in 1947 is being revised. Would you check the list for material that is essential in helping you do your job, and return the list to the library. The material will be routed to you on regular circulation for a period of three days, then you route to the next person on the list.

Loan limit. Several inquiries have been received as to the time of loan. If several people from one office use a publication, but only one person has requested that the material be routed to him, then our records show that only one person is interested and the loan period is three days for any one person. It is important that each person check his own list so that our records can be made accurate and that time and speed can be considered in trying to get this material to our readers while it is current.

For a complete coverage of material in the field of agriculture, be sure to check the Bibliography of Agriculture each month. Time can be saved by eliminating many publications that have to be scanned each month.

PERIODICAL LIST FOR 1950

Agricultural economic research. q.	American fertilizer. s-m.
Agricultural chemicals. m.	American forests. m.
Agricultural engineering. m.	American fruit grower. m.
Agricultural leaders' digest. m.	American home. m.
Advanced management. q.	American journal of botany. m.
Agronomy journal. m.	American journal of economics and sociology. q.

 Publications issued. m.
 U.S. Library of Congress.
 Monthly check-list of state pubs.
 U.S. National Archives. Federal register
 U.S. Bureau of Labor Statistics.
 Average wholesale prices and index
 numbers of individual commodities.

U.S. DEPARTMENT OF AGRICULTURE LIBRARY
ATLANTA BRANCH

The Atlanta Branch Library serves Department employees in nine states East of the Mississippi exclusive of Louisiana; Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee and Virginia. Its chief function is the collection and dissemination of material and information for field personnel. The Branch Library represents a small live collection with subjects representative of the programs within the area served. The collection is supplemented by the Department Library, Washington, D.C., which is its main drawing source and through local and other inter library loans.

Its special services includes the regular routing of scientific journals to points of contact which are many and varied; photoprints of articles free to Department employees up to fifty pages; microfilms; photoprints of citations listed in the Bibliography of Agriculture; and deposit collections which are sent to various locations for extended loans.

The loan limit of library material varies. For periodicals on regular circulation the loan period is for three days. Material on special request is for not longer than one month, depending upon reserves on hand. Material borrowed for one month can be renewed for another month if not needed by others.

Information as to available publications is furnished you through the Atlanta Branch Newsletter, issued monthly by the Atlanta Branch Library. This is a list of new acquisitions added to the library. The Bibliography of Agriculture published monthly by the Department Library, Washington, D.C., is a comprehensive bibliography of the world's agricultural literature. By checking the citations in this bibliography each month, time spent in scanning separate journals can be saved.

Each Department Agency in Atlanta has a representative on the Library Committee. Other bureaus are given special notices through correspondence. These members represent you in the library and act in an advisory capacity. The Library's objective is a service aimed at providing you with the information and material you need to help you do your job.

Committee members are:

Dr. W.C. Dendinger	BAI
Mr. H.C. Eriksson	FS
Mr. K. McDaniel	PMA
Miss Erna Proctor	FHA
Mr. W.R. Poole	PMA
Mr. J.E. Quin	OS
Mr. C.F. Bohleber	SCS

Mrs. Clemmie N. Shirley is the librarian. The address is: Atlanta Branch, USDA Library, 920 Glenn Building. Atlanta 3, Ga. Telephone: LA6041.
